### SUMMARY

An innovative professional with over 2 years of dedicated experience in frontend development, specializing in ReactJS and NextJS, with a strong aptitude for creating dynamic and responsive web applications. I am eager to embrace new challenges that foster growth and enhance my skills, while being passionate about expanding my knowledge. Seeing for an industry in which I can leverage my knowledge and experience to contribute to the organization's operational success and overall growth.

### SKILLS

- **Proficient:** ReactJS, NextJS, JavaScript, ES6, Tailwind CSS, Tanstack Query, Formik, Yup, Firebase
- **Comfortable:** NodeJS, ExpressJS, MongoDB, React Bootstrap, Material UI, Headless UI
- **Tools:** VS Code, Chrome Dev Tools, Github, Canva

### PROFESSIONAL EXPERIENCE

#### Junior Frontend Developer - Repliq Limited

Aug 2023 - Jul 2024

- Use NextJS and Tailwind CSS to build complex layouts, features and functionalities.
- Build scalable and re-usable components using libraries like tw-merge, clsx and class-variance authority.
- Integrate modern tools like Tanstack Query, Formik, Yup, React Hook Forms.
- Guide interns with training modules and maintaining task management for them.
- Develop API endpoints based on design and requirement analysis.

#### Trainee Frontend Developer - Repliq Limited

Jun 2023 - Aug 2023

- Fix styling issues and unnecessary codes.
- Maintain best practices and principles during development.
- Learn and adopt to the development methodologies.
- Implement and follow design patterns to ensure structured codebase.

### PROJECTS (Projects marked with \* are done at Repliq Limited, Codebase cannot be shared)

#### \*ProHR (Live)

**Technology Stacks:** NextJS, Tailwind CSS, Headless UI, Axios, MOBX, Stripe, Vercel.

- A web application to make the job application and recruitment process easier for candidates and HRs respectively. It is a comprehensive recruitment platform that enables organizations to manage job postings, video screenings, applicant tracking, and interview scheduling, with an admin panel for global oversight and a dynamic notification system.

#### \*Suppliers (Live)

**Technology Stacks:** NextJS, Tailwind CSS, Headless UI, Axios, MOBX, Stripe, Vercel.

- A web application for managing interior design, furniture suppliers, retailers and service providers. Users onboard their organizations, manage product catalogs, showcase projects, and streamline partnerships, with advanced features available through a Suppliers Plus subscription and admin dashboards for tracking.

### EDUCATION

#### Bachelor of Computer Science and Engineering

Jan 2019 - Dec 2022

International University of Business Agriculture and Technology

CGPA - 3.51 (on a scale of 4.00)
